

8. Work by firm which best illustrates current qualifications relevant to this project.

**ROOF CONSULTING
SERVICES, INC.**

				Estimated Cost (In Thousands)	
Project Name & Location	Nature of Firm's Responsibility	Project Owner's Name & Address and Project Manager's Name & Phone Number	Completion Date (actual or estimated)	Entire Project	Work for Which Firm Was/Is Responsible
Comcast / LFR Engineering Various Project Sites CO, CT, FL, IN, LA, MA, MD, MN, MS, NH, PA, TN, VA, VT & WV	Visual Roof Condition Evaluations, Non-Destructive Moisture Surveys, and Roof Replacement Design Services	Comcast / LFR Engineering 194 Forbes Road Braintree, MA 02184 Greg Sampson (781) 356-7300	June, 2006 to Current	\$ 142,000.00	\$ 142,000.00

In June of 2006, we contracted with LFR Engineering to provide roof condition evaluation services on numerous Comcast facilities located at various geographic locations throughout the continental United States. To date, we have completed over 128 inspections in 16 states with a total roof area of over 790,000 square feet.

We have also provided roof replacement design and construction administration services for numerous roof replacement projects and assisted with obtaining bids from local roofing contractors for implementation of recommended roof system repairs.

We anticipate that we will continue to provide roof inspection, roof design and construction administration services for numerous additional projects. We have been informed that Comcast currently has over 3,500 facilities throughout the United States that could eventually be incorporated into our comprehensive roof inspection program.
