

8. Work by firm which best illustrates current qualifications relevant to this project.

**ROOF CONSULTING  
SERVICES, INC.**

				Estimated Cost (In Thousands)	
Project Name & Location	Nature of Firm's Responsibility	Project Owner's Name & Address and Project Manager's Name & Phone Number	Completion Date (actual or estimated)	Entire Project	Work for Which Firm Was/Is Responsible
<b>Fannie Mae</b> Multiple Facilities Washington, DC	Visual Roof Condition Evaluations, Non-Destructive Roof Moisture Surveys and Roof Replacement Design Services	Fannie Mae 3900 Wisconsin Ave., NW Washington, DC 20016 George Simons - (202) 368-1160	2003 - Current	\$ 1,367,000.00	\$ 1,367,000.00

In April, 2003 we were requested to perform visual inspections and non-destructive roof moisture surveys on all facilities owned by Fannie Mae that are located in Washington, DC and Northern VA. We completed the investigations that included six buildings and 291,680 square feet of roof area and provided detailed written reports with AutoCAD roof plans showing locations of moisture entrapment and deficient conditions that were observed during the inspections.

Since these initial investigations, we have continued to provide roof replacement design and construction management services on numerous projects as well as semi-annual roof inspections and most recently, building envelope investigations.

We are currently preparing construction documents for several building envelope and roof repair projects that will be completed over the next 10-12 months and recently completed a window washer roof anchor installation project
